Here are a couple of graphs showing probabilities for the forthcoming game against Aston Villa. At the Lane, we've played them 69 times, winning 36 and losing 20; outscoring them 134 to 99.

We've had great success in this fixture in recent seasons, with wins in each of the last four seasons. In fact, home and away, we have been unbeaten in our last 13 meetings!

At the top is a graph showing the relative likelihoods of each scoreline: the larger the rectangle, the more likely the scoreline. The most likely scoreline is a 1-0 win, followed by a 2-0 win, a 1-1 draw and the ever popular 2-1 win.

At the bottom is a pie chart showing probabilities for the overall result: 61% for a Spurs win, 24% for a draw, 15% for a loss.

Head to Head Summary

Team	Played	Win	Draw	Lose
Spurs	140	60	32	48
Aston Villa	140	48	32	60
